Registration Form â€“ Record of Changes

Form BM03. Attach to the proposed final registration form. The approved project code and title remain unchanged. Export to PDF together with the registration form. File name: SEP490_<ProjectCode>_R2_Registration.pdf

1. Project Information

Project code	FA26SE249
Project name	PrintGrid - Development of a Distributed 3D Printing Fulfillment and Scheduling Platform for a Network of Independent Printing Labs
Team	Nguyen Xuan Tan, Dau Nguyen Bao Tuan, Nguyen Quang Minh, Truong Quang Nhat
Supervisor	Nguyen Tan Phuc (phucnt40@fpt.edu.vn)
Current registration version	R2-Nov09
Proposed version	R2-Nov09
Version	1.0
Date	09/11/2026

2. Changes

â˜ No changes to the current registration form

No.	Section	Current content	Proposed content	Reason	Proposed by
1	FR-CUST-006	simple fixed-quote	staged deposit + staff quote-review gate + itemized CuraEngine-based slicing	GVHD Review 1 feedback - pricing transparency + deposit risk mitigation	Nguyen Xuan Tan
2	FR-SCHED-006/007	single-lab assignment	multi-lab split (BR-SCHED-010), proactive date change (BR-SCHED-011)	Instructor comment - how to handle large quantities across labs	Nguyen Quang Minh
3	FR-LAB-002	machine-level only	workshop-level capacity option (BR-LAB-009)	GVHD - reduce lab declaration burden	Dau Nguyen Bao Tuan
4	new BR-STOCK series	no inventory	stock reservation/transaction tracking (BR-STOCK-001..003)	GVHD Review 1 - prevent overselling filament	Nguyen Xuan Tan
5	new BR-IP series	basic access	SHA-256 hash chain, IP acknowledgment (BR-IP-001..004)	GVHD Review 1 - protect customer design IP	Nguyen Xuan Tan
6	Payment flow	pay-on-order	staged deposit (50%) + balance before pack (BR-PAY-007/008)	GVHD Review 1 - financial risk sharing	Nguyen Xuan Tan

Accepted reasons: Review 1 feedback, findings from Iteration 1, or constraints from data, partners or technology. Changes that significantly reduce business complexity must be fully justified.

3. Decision at Review 2 (completed by reviewers)

No.	Decision (Accepted / Adjusted / Rejected)	Reviewer note
1	Accepted	Customer does not select a lab; they only receive a single quote from the platform. Machine model designation is an advanced option with a surcharge.
2	Accepted	Machine/lab assignment is based on profile, technical constraints, trial scheduling and the correction factor k.
3	Accepted	Business model: the platform acts as intermediary, collects staged payment, pays the lab based on actual cost, and keeps the model-designation surcharge.
4	Accepted	Multi-lab split is allowed; the platform coordinates multiple labs on a single large order.
